

## Exterior Accessory Metals

---

2008 Additions

## Exterior accessory metals

Eagle® is introducing new extruded accessory metal options for our windows and doors. Choose from our extended selection that includes flat and profiled casings, brickmold casings and sill nosings.

## Classic style

Designed to add depth and traditional appeal, the accessory metals extend outward from the window or door frame casting a shadow line consistent with true historical applications.

Match or contrast the accessory metals with your windows and doors in any of our 50 Eagle Complimentary Colors™, custom colors and anodized finishes.

**Brickmold casing A753  
and sill nosing A751  
shown on casement**

(Sill nosing A752  
also available)

## New exterior accessory metal styles
